

**SINCE 1997**, Triton Industries, LLC has covered the globe with innovative, original designs and developments in the industrial cleaning industry. Triton's vacuum systems are recognized as truly premier within the industry. Triton's Units are working on six continents, including industrial installations

in the United States, the Arctic Circle, the Caribbean, the Mideast, Southeast Asia, and Latin America.

Now after 25 years of Excellence in Innovation, Triton is ready for our next leap forward in service.

Triton is proud to share how we are growing to serve our customers more creatively, efficiently, and

effectively with our next generation of leaders.

Mike and Lisa James started and built Triton Industries to solve their clients most pressing challenges. Since then, they have focused on building the future leaders of Triton to continue their legacy of innovation, excellence, and creative problem solving.
